Quality around the clock

Variety in form and colour

meta cubicle systems range among the leading ones in the world. More than 200.000 cubicles of this series have been installed until to date all around the globe. Our standard includes first-class powder-coating, stainless steel hinges and handle sets of 23 mm meeting the highest standard. You can choose the standing, suspended or full-height version or the one without clearance.

Standard version with support legs

Front Walls

Type 30 RW: 30 mm chipboard faced with textured melamine resin on both sides.

Type 30 NR: 24 mm PU-recycling-sheets with 3 mm textured melamine resin.

All visible edges have PP laser edgebanding (3mm thick). An aluminium top profile, 43 mm x 20 mm, covers the entire length of the front wall to give additional stability. Wall connection with aluminium u-profiles, 33 mm x 30 mm walls. Pilaster panels up to 90 mm width without support leg, from 90 mm width with support leg.

Doors

Same material as front walls. All edges with PP laser edgebanding (3mm thick). All corners and edges radius 3mm. Aluminium doorstop with rubber cushion on the lock side for silent closing.

Partitions, Dividers & End Panels

Same material as front walls. All visible edges on top and bottom with PP laser edgebanding (3 mm thick). Wall and front connection with aluminium u-profiles, 33 mm x 30 mm. Widths up to 1800 mm are supplied in one piece.

Privacy/Urinal Screens wall mounted

400 x 900 mm

Wall connection with four powder coated support angles.
30 mm version: 30 mm chipboard faced with textured melamine resin on both sides. All visible edges with PP laser edgebanding (3 mm thick).

Glass version: consists of 2 pieces of glass with a matt foil glued in between.

Privacy/Urinal Screens floor mounted

500 x 1850 mm

Wall connection with four powder coated support angles. Bottom edge of the screen is fixed with a support leg.

30 mm version: 30 mm chipboard faced with textured melamine resin on both sides. All visible edges with PP laser edgebanding (3 mm thick).

Support Legs

Powder coated aluminium tubes, 20mm diameter, with height adjustable nylon rosettes, concealed fixing. The support legs are inserted 50 mm into the panels.

Hardware

2 three-roll-hinges made of stainless steel, either polished finish or powder coated in 7 RAL colours. Nylon lever handle set (23 mm dia). Inside the cubicle rosette with olive button, outside red/white indicator with emergency opening. Mortice lock with latch and bolt, round end 20 mm lock face plate recessed into door .

Accessories

Each cubicle has 1 nylon coat hook and a door buffer. Concealed fittings.

Colours Panels

12 colours are available without surcharge.

Colours Profiles and Nylon Parts

Available without surcharge in anodized aluminium or the following standard colours:

black	approx. RAL 9005
white	approx. RAL 90 10
red	approx. RAL 3003
yellow	approx. RAL 1004
dark blue	approx. RAL 5011
grey	approx. RAL 7038
ultramarine	approx. RAL 5002

Environmental Protection

We do not use materials containing PVC or asbestos.

Type 30 RW is suitable for dry areas.

Type 30 NR is suitable for wet areas.

All cubicles semi fabricated for easy installation on site. Framework screwed and bonded to pilaster panels. Mortice latch and dead bolt set fitted into doors.

Laser edgebanding

Conventional edge

Unwanted glue lines are a thing of the past!

- perfect looks
- no gap between edgeband and panel
- greater water and moisture resistance
