

Líneas de madera maciza en techos y paramentos | Lines of solid wood in ceilings and walls

Instalación [Installation]

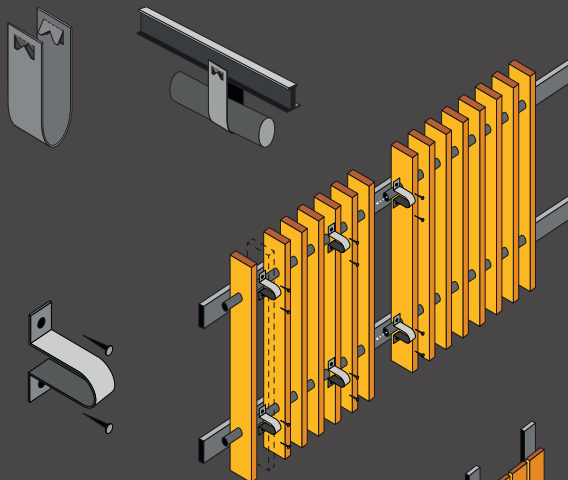

Sistema Grid [Grid System]

Instalación en techo Use on ceilings

Sobre perfilera T-15, parrilla de Sistema Grid con clip de fijación en forma de "U".

U-shaped clamp on rod, fixed to a wooden spacer.

Instalación en pared Use on walls

Abrazadera con forma de "U" sobre varilla, tirafondeado a rastrel de madera.

On T-15 structure, Grid System with U-shaped clamp iron.

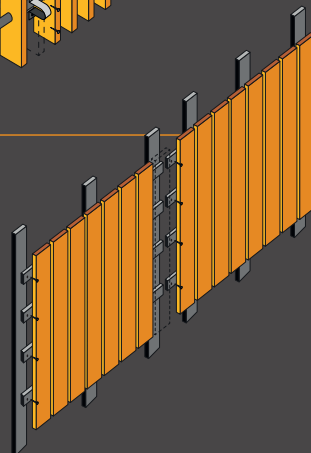

Sistema Lineal [Linear System]

Instalación sobre pared o techo

Use on wall or ceiling

Tirafondo a rastrel de madera. Las lamás se pueden colocar en dirección vertical u horizontal. Rastrel en perpendicular a dirección de la lama.

Fixed to a wooden spacer. The slats can be positioned either in a vertical or horizontal position. The spacer must face the same direction as the slat.

 **spigoline**[®]
REVESTIMIENTO DE LAMAS

Líneas de madera maciza

Spigoline está especialmente diseñado para ofrecer toda la versatilidad en los revestimientos de lamás de madera maciza. Así se pueden aplicar en techos y paredes, en interior y exterior, sobre superficies cóncavas, convexas y onduladas, tanto en posición vertical, horizontal e, incluso, inclinada.

Solid wood lines

Spigoline is designed to offer maximum versatility for all solid wood cladding. It can be used in interior and exterior ceilings and walls, on concave, convex and undulated surfaces, in a vertical, horizontal or inclined position.

Sistema Grid [Grid System]

Spigoline sistema grid está formado por listones de madera maciza (secciones cuadradas o rectangulares) colocados paralelamente entre sí, unidos mediante varillas de madera (diámetro 13 mm.)

Spigoline is made up of slats of solid wood (square or rectangular sections) positioned parallel to each other, joined together by wooden rods (13mm diameter).

Acabados Finishes

Ayous, Pino, Haya, Roble, Cerezo, Maple y Wengué
Ayous, Pine, Beech, Oak, Cherry, Maple and Wengué

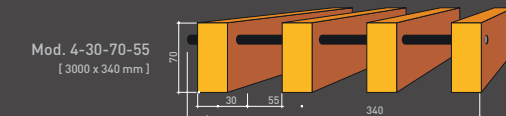

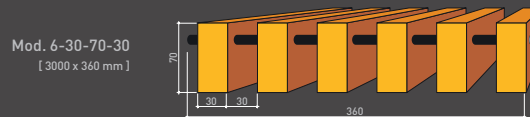

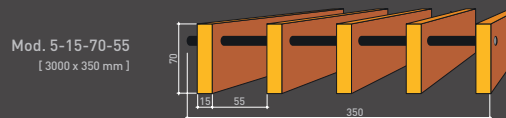

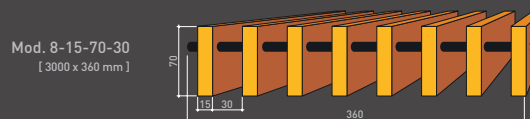

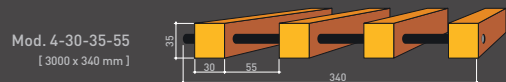

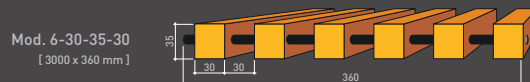

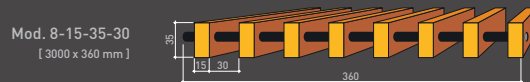

Lacados Lacquers: RAL | NCS

Tratamiento ignífugo Tratamiento ignífugo

Se realiza mediante la aplicación de barniz ignífugo sobre los listones o la impregnación de los listones mediante autoclave con retardantes al fuego.

Fire-resistant varnish is applied to the slats, or the wood is treated with fire retardants in an autoclave.

Mod. Nº lamas - ancho de lama - alto de lama - separación entre lamas
Mod. Nº slats - width of slat - height of slat - distance between slats

Sistema Lineal [Linear System]

Spigoline sistema lineal está formado por lamas de madera en MDF (secciones rectangulares) colocadas paralelamente entre sí, unidas mediante lamas transversales.

Spigoline linear system is made up of MDF wooden slats (rectangular sections) positioned parallel to each other and joined together by transverse slats.

Modelos y medidas Models and measurements

Lama Slats 70-15 | Placa Panel: 2400 x 340 mm
Lama Slats 90-15 | Placa Panel: 2400 x 420 mm
Lama Slats 70-19 | Placa Panel: 2400 x 356 mm
Lama Slats 90-19 | Placa Panel: 2400 x 436 mm

Acabados

Melaminas: Maple, Haya, Roble, Cerezo, Peral, Wengué, Blanco e Inox

Madera Natural barnizada: Haya, Roble, Cerezo, Maple, Wengué

Lacados: RAL/NCS, teñidos...

MDF Posibilidad de MDF ignífugo B-s2, d0

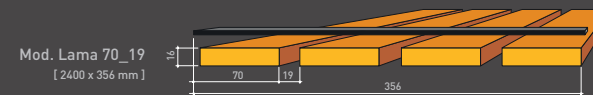

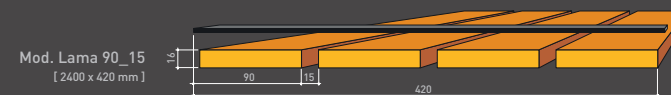

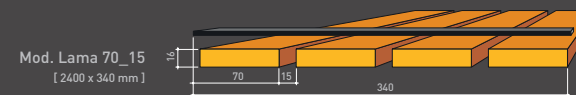

Finishes

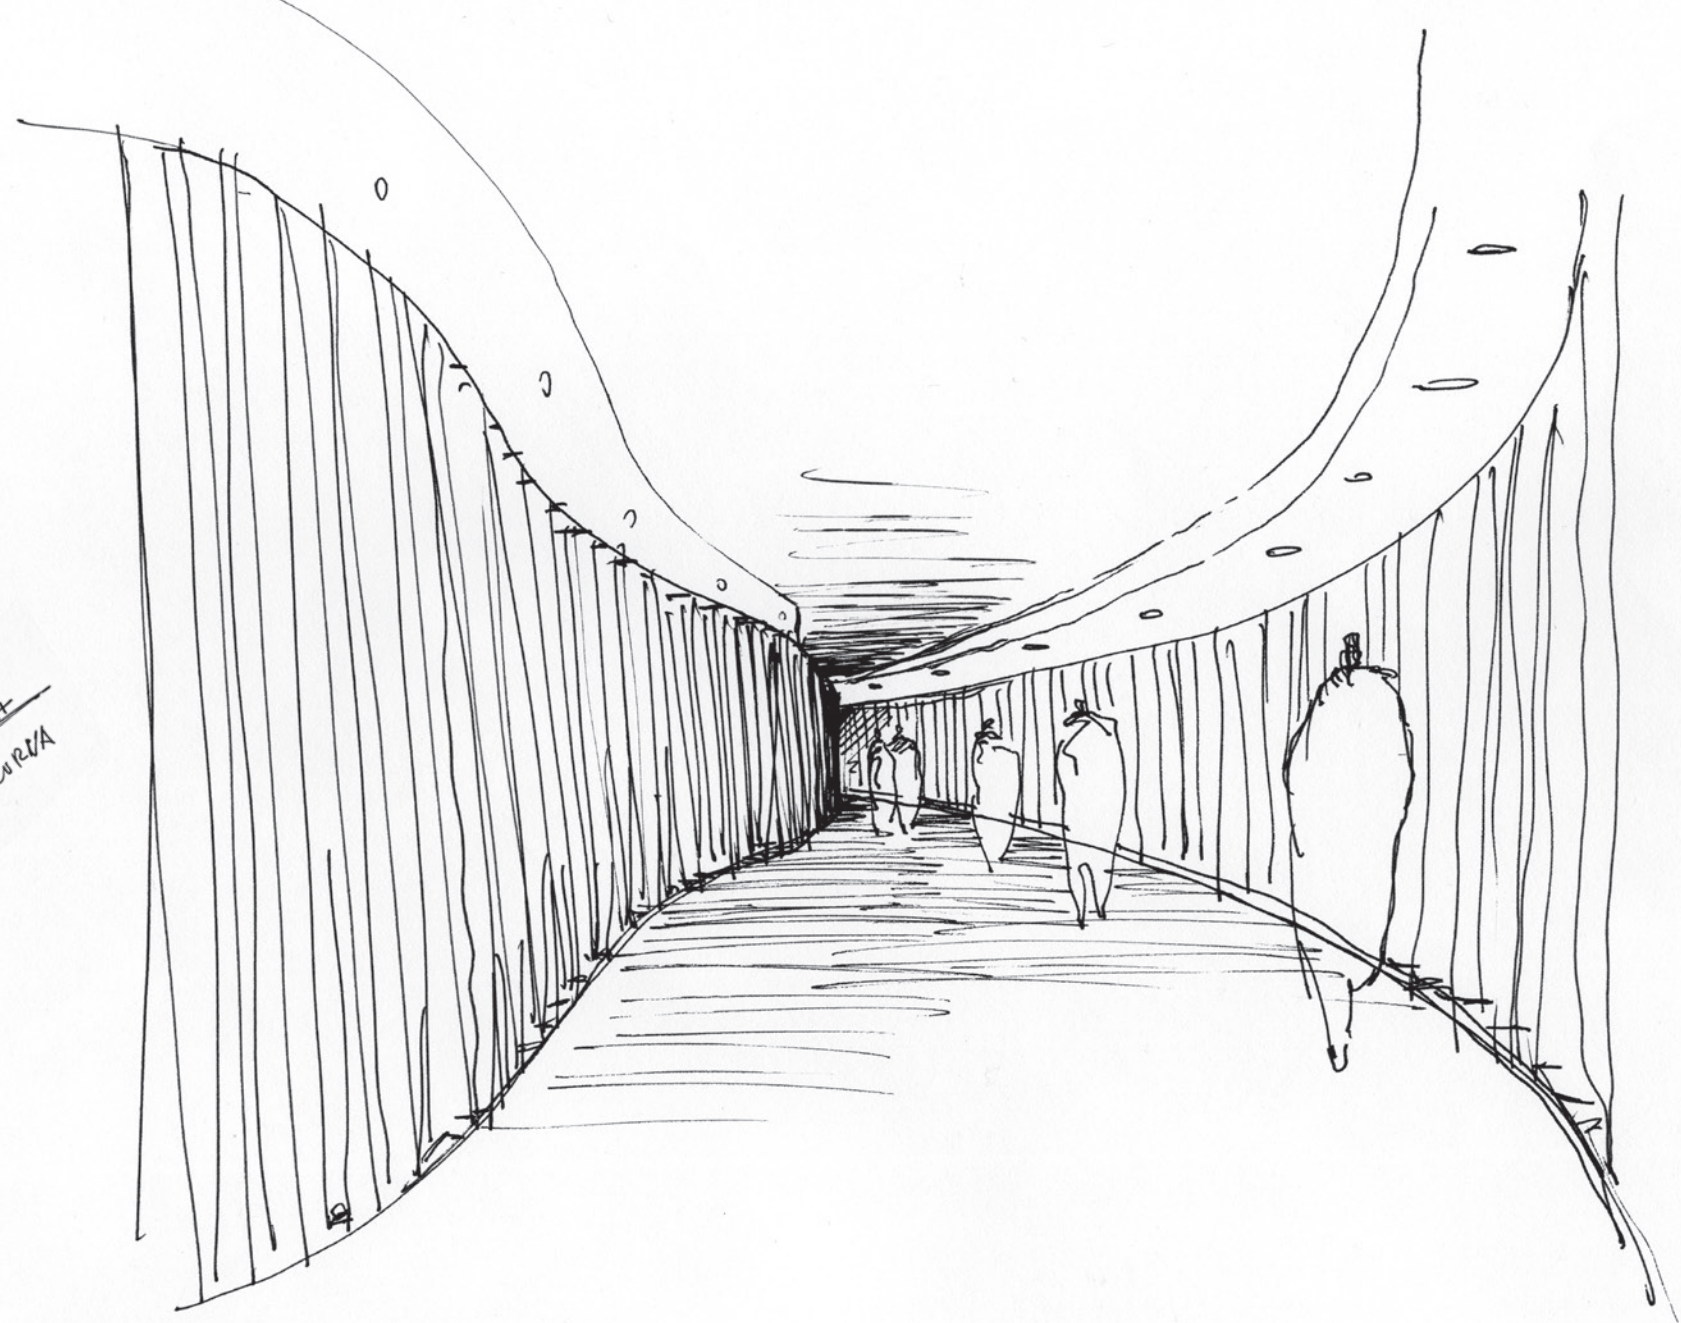

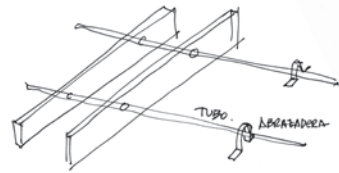

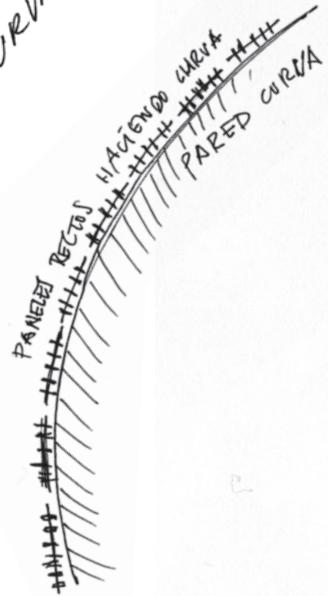

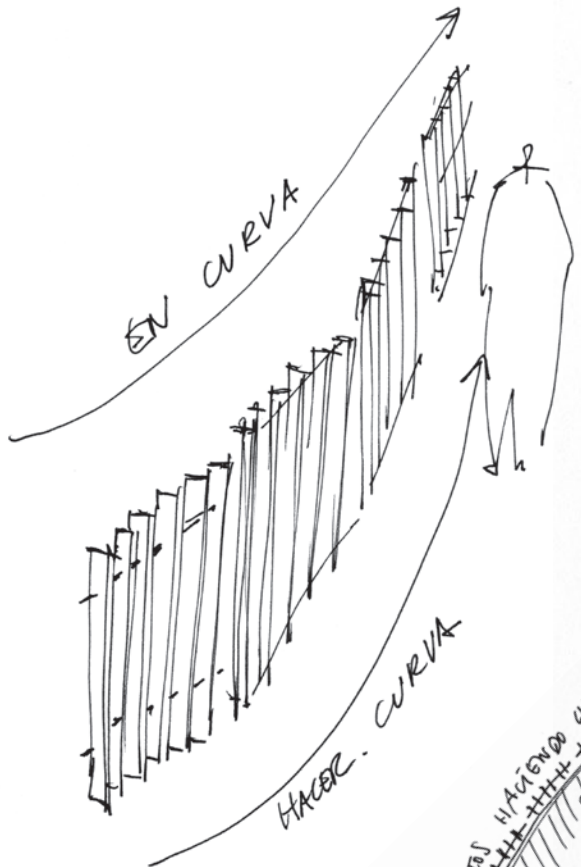

Melamine: Maple, Beech, Oak, Cherry, Pear, Wenge, White and Inox

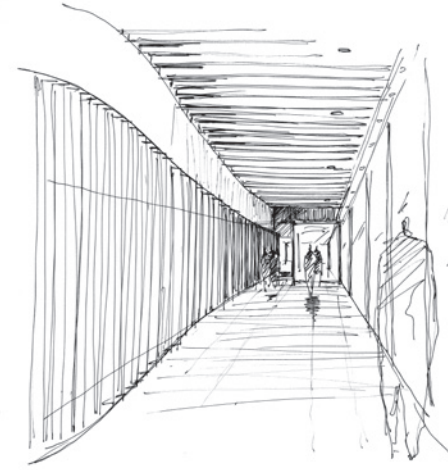

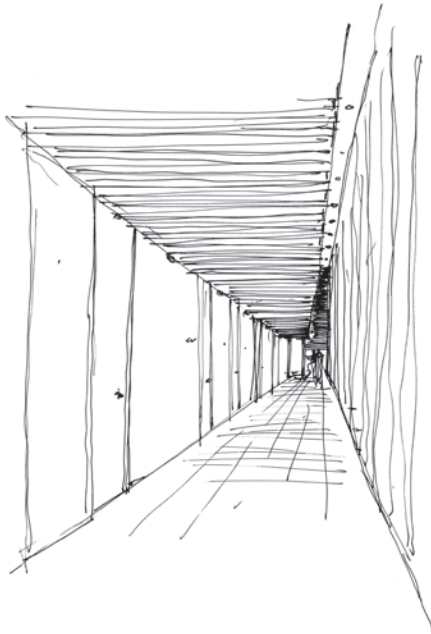

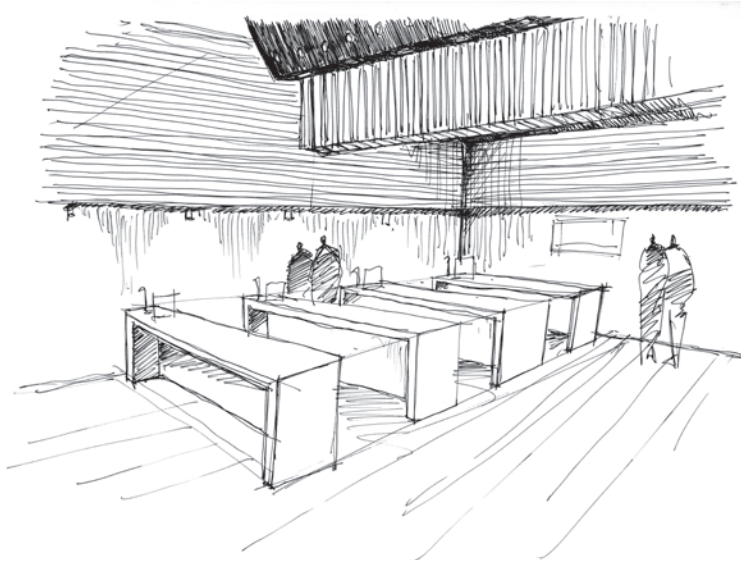

Varnished Natural Wood: Beech, Oak, Cherry, Maple, Wengué

Lacquers: RAL/NCS, stained etc.

MDF Possibility of fire-resistant MDF B-s2, d0
